

Arnold Schwarzenegger, Governor

STATE CLEARINGHOUSE

NEWSLETTER

April 1-15, 2006

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **April 1-15, 2006**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

Governor's Office of Planning and Research State Clearinghouse

Date: December 5, 2003

To: All CEQA Lead Agencies

From: Terry Roberts, Director, State Clearinghouse

Re: Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CDs must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or state.clearinghouse@opr.ca.gov.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2005**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

SUMMARY OF CEQA DOCUMENT SUBMITTALS BY YEAR AND BY TYPE

Year	NOP	ND/MND	EIR	NOD	NOE	EIS	EA	Other	Total Documents
1999	602	2007	481	1808	2699	22	41	177	7,837
2000	613	2243	475	2580	3840	16	78	386	10,231

2005	797	3076	636	3087	5649	16	59	370	13,690

Key:

NOP	Notice of Preparation
EIR	Draft Environmental Impact Report
ND/MND	Negative Declaration/Mitigated Negative Declaration
NOD	Notice of Determination
NOE	Notice of Exemption
EA	Environmental Assessment (federal)
EIS	Draft Environmental Impact Statement (federal)
OTHER	Other types of documents, including Final EIRs, Early Consultation notices, plans, etc.

CEQA Documents

Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Monday, April 03, 2006</u>			
2006042020	Clover Creek Weir Modification Project Lake County Community Development Department --Lake Modification of existing fixed concrete weir at the mouth of a diversion channel on Clover Creek.	CON	04/18/2006
1989010312	Rancho San Marcos Golf Course Expansion (03RVP-00000-00002) Santa Barbara County --Santa Barbara The applicant, Rancho BB Property, LLC (RBBP) is requesting approval of revisions to 90-CP-104 in order to allow expansion of some of the existing facilities and modification of certain conditions of approval. The purpose of the revisions is to increase the amenities provided at the golf course and overall utilization of the facility. The proposed project includes the construction of new facilities, adaptive re-use of existing facilities, and changes in the operational conditions contained in the conditional use permit (CUP). The proposed project includes 8,615 square feet of above-grade new construction that would include the pro-shop, administrative offices, locker rooms, receiving area, pavilion, kitchen, and golf academy.	EIR	05/17/2006
1991022017	Riverview Extension of Time of a Tentative Subdivision Map Sacramento County --Sacramento An Extension of Time for an approved subdivision map called "Riverview", for a further three-year span. DSEIR updates information and changed circumstances since original map approval.	EIR	05/17/2006
2002081024	Application to Appropriate Santa Ana River Water Recirculated Draft Program Environmental Impact Report Orange County Water District Anaheim, Buena Park, Costa Mesa, Cypress, Fountain Valley, ...--Orange The Orange County Water District (OCWD of District) has filed an Application to the State Water Resources Control Board to appropriate water from the Santa Ana River (SAR), which flows through portions of San Bernardino, Riverside, and Orange Counties. The District requests a permit that recognizes its current water rights and diversion practices as well as appropriation of the river's increasing flow at Prado Dam that would otherwise reach the Pacific Ocean. It is anticipated that future base flow and storm flow in the SAR below Prado Dam will increase due to urbanization in the upper SAR watershed. The District wants to formalize with the SWRCB the right to capture whatever level of additional base and storm flow may reach Prado Basin in the future, up to 505,000 acre-feet per year (afy).	EIR	05/17/2006
2003012104	Lower Cascade Canal Banner/Cascade Pipeline Nevada County Irrigation District --Nevada Proposed installation of raw water and treated water pipelines from Clipper Creek Siphon along the south side of Banner Mountain to the E. George and Loma Rica Water Treatment Plants. Water would be re-routed from the Upper Grass Valley and Cascade Canals, which would be retained as service laterals at reduced flow. Appurtenances would include a standpipe reservoir near Banner Quaker Hill Road, an overflow pipeline to Scotts Flat Reservoir, and a hydroelectric generating facility at the Loma Rica water treatment plant.	EIR	05/17/2006

Documents Received during the Period: 04/01/2006 - 04/15/2006

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Monday, April 03, 2006</u>			
2003091127	<p>Seawater Desalination Project at Encina San Diego County Water Authority --San Diego</p> <p>The proposed project would provide an additional water supply to meet existing and projected water demands in San Diego County. It consists of a desalination plant and appurtenant facilities on a 7 to 11 acre site within the boundaries of the Power Station. An approximately 10-mile long, 66-inch diameter buried pipeline would connect the desalination plant to the existing Water Authority distribution system at the Second Aqueduct.</p>	EIR	05/18/2006
2004122137	<p>Towers on Capitol Mall (P06-024/M05/106) Sacramento, City of Sacramento--Sacramento</p> <p>Request from applicant to modify Tentative Map and Special Permits to convert 3rd Street to two-way traffic between L Street and Capitol Mall. Specifically, the approved Tentative Map and Special Permits for the Towers on Capital Mall project would be modified to reflect a relocation of one of the loading docks to 4th Street, with the second loading dock remaining on L Street, a reduction in the maneuvering width within the building's parking garage, and the addition of valet services on 4th Street. The current request is also for a special permit for tandem parking in the on-site parking garage and a variance to reduce the maneuvering width within the garage.</p>	EIR	05/17/2006
2005051102	<p>Bee Rock Quarry Expansion Santa Barbara County --Santa Barbara</p> <p>The project is: (1) to modify the operational limitations imposed by the Conditional Use Permit 87-CP-029 RV01 under which the facility currently operates, (2) to expand the mining area by nine acres, (3) to increase the current 175,000 tons/year production limit to a five year rolling average of 300,000 tons/year with a maximum of 400,000 tons in any given year, and (4) to clarify the condition requiring avoidance of truck departures during the morning peak hour traffic (the request is to prohibit southbound loaded truck traffic thus allowing unrestricted unloaded truck arrivals and loaded northbound departures). The mining area would increase from 22.5 to 31.5 acres. The amount of limestone to be extracted would increase by approximately 4 million tons to 11.7 million tons. Mining would continue to the year 2043. The proposed reclamation plan describes the geometry of the final reclaimed surface and the revegetation methods to be used, including the planting of 100 oak trees and the seeding of the final surface with native species.</p>	EIR	05/17/2006
2005121171	<p>Santa Maria Wastewater Treatment Plant Expansion Santa Maria, City of Santa Maria--Santa Barbara</p> <p>General Plan Amendment, rezoning, and annexation of approximately 252 acres to the City of Santa Maria to facilitate expansion of the City's wastewater treatment facility, consolidation of City facilities, including a police impound yard and corporation yard, and relocation of an animal shelter to allow plant expansion on contiguous property.</p>	EIR	05/17/2006

2004021058	Tentative Tract Map No. 31397 / EIR No. 467 Riverside County Transportation & Land Management Agency --Riverside Tentative Tract Map No. 31397 proposes to subdivide approximately 149.5 acres that was formerly used for citrus groves, into seventy-five residential lots with a minimum lot size of one-half acre up to ten acres.	FIN	
2004072012	L-P032029 Contra Costa County Community Development Martinez--Contra Costa Request to establish an asphalt and concrete crushing facility and contractors yard at the site.	FIN	
2005081042	St. Regis Redevelopment Project Los Angeles, City of Los Angeles, City of--Los Angeles The project would include 147 luxury residential condominium units, resident amenities, a 7,000 square foot restaurant and either (a) 27,000 square of resident-focused specialty uses or (b) a 43,000 square foot private membership facility. The project would include approximately 576,000 square feet of Floor Area and will be approximately 480 feet in height.	FIN	
2006041004	City of Merced Well 18 Merced, City of Merced--Merced Construct a water supply well.	JD	05/02/2006
2006044001	Target Upgrades on Leach Lake Tactical Range at the National Training Center, Fort Irwin, California U.S. Air Force --San Bernardino The USAF at Nellis AFB, Nevada proposes to upgrade targets on Leach Lake Tactical Range to enhance realistic training for air liason officers, forward air controllers-airborne, tactical air control parties, special tactics team members, and selected Army, Navy, and Marine Corp members. The realistic training includes tactics, techniques, and procedures in planning, requesting, controlling close air support at the tactical level. Upgrade actions would include reconfiguring and/or rebuilding current targets and building new targets. The USAF also proposes to construct a 500-foot long fence on each side of the existing Owl Springs fence and gate, and install installation boundary/warning sights to improve security and public safety.	JD	05/02/2006
2006041011	Valley Region Maclay Elementary School Addition Los Angeles Unified School District --Los Angeles The LAUSD proposes to construct an elementary school addition to an existing primary school that would provide 550 two-semester seats in 22 new classrooms for kindergarten through 5th grade. The proposed project would additionally include two instruction rooms, a new multipurpose room, a new satellite food service area, and other support facilities. The proposed project also includes remodeling the existing library and conversion of the existing multipurpose room into a new library. The proposed project would relieve overcrowding at Coughlin and Broadous Elementary Schools.	MND	05/02/2006

2006042007	Tentative Tract Map 05-1021; TK Ranch Subdivision Corning, City of Corning--Tehama To subdivide approximately 10.0 acres into 35 lots for single-family residential development.	MND	05/02/2006
2006042010	ACWD Alameda Creek Pipeline No. 1 Fish Screen and Lago Los Osos Pipeline Project Alameda County Water District Fremont--Alameda Project consists of installation of fish screens for an existing water diversion, removal of an inflatable rubber dam fabric, modification of the dam's foundation to provide for fish passage, and construction of a pipeline under Alameda Creek to connect recharge basins on the north and south sides of the Creek.	MND	05/02/2006
1998052052	Pacific Herring Commercial Fishing Regulations Fish & Game Commission Crescent City--San Francisco, Alameda, ... The project to be described is commercial fishing as an element of the Department's Pacific herring management program. The locations of the project are San Francisco Bay, Tomales Bay, Humboldt Bay, and Crescent City Harbor. Herring are primarily harvested for their roe (eggs) during the months of December through March (spawning season) using small mesh gill nets to take whole fish. The project objective is to provide optimal management of the Pacific herring resource for its human use and ecological values.	NOP	05/02/2006
1999082100	The Landing (FKA: Bradshaw Landing and Sacramento Promenade) Comm. Plan Amendment, Rezone, Use Permit, Variances, Excp, TSM & AQ-15 Environmental Review and Assessment, Department of Sacramento, Rancho Cordova--Sacramento The current project proposes redevelopment of the Sacramento 6 Drive-In Theatre property and adjacent parcels with a 20-screen 3,800 +/- seat multiplex theatre, restaurant and retail and office complex. The project includes a total of 439,706 square feet in building space on 37.5 +/- acres.	NOP	05/02/2006
2000062092	American Institute of Mathematics Planned Unit Development (PUD) SEIR Morgan Hill, City of Morgan Hill--Santa Clara The project is an amendment to an approved PUD permit to expand the size of an approved structure from 58,550 square feet to 167,512 square feet. The American Institute of Mathematics Research Conference Center (ARCC) will function similar to a small-scale private academic facility with meeting rooms, guest rooms, a dining facility, a library, and an athletic facility, while sharing a portion of the facility with an existing golf course. The ARCC will be used for academic programs, outreach programs, scientific research, workshops, and lectures. The project will include limited retail space, three open-air courtyards, display areas, employee offices, lockers and break rooms, an auditorium and a parking garage. The proposed project will require environmental reviews focusing on Aesthetics/Visual Resources, Traffic and Parking, Sewer and Service Systems, Grading and Geotechnical, Hydrology and Increased Runoff, and Tree Removal. 2003042040	La Bahia Beach Resort Santa Cruz, City of Santa Cruz--Santa Cruz The proposed project consists of a General Plan/ Local Coastal Plan Amendment, Zoning Ordinance Amendment, Residential Demolition Authorization Permit, Historic Demolition Permit, Historic Building Survey Deletion, Planned Development Permit, Coastal Permit, Design Permit, Development Agreement, and Tentative Subdivision Map for demolition of the existing 45-unit La Bahia apartment complex and construction of a new 120-room hotel with approximately 4,700 square feet of meeting room space, a 2,178 square foot restaurant, a 1,400 square foot bar/lounge area, a 2,300 square foot salon, a swimming pool, and a partially underground parking garage with 171 onsite parking spaces.	NOP	05/02/2006
2004111150	Adelanto Wastewater Reclamation Facility (AWRF) Phase II Expansion Project Adelanto, City of Adelanto--San Bernardino The project phase II Expansion of this facility is consistent with the previously approved expansion concepts with the incorporation of an adjacent 9.2-acre property to include two additional percolation ponds. The proposed facilities and activities will be constructed and will operate within the existing 18.4-acre Adelanto Wastewater Reclamation Facility site with the addition of the adjacent 9.2-acre parcel to the east for the additional ponds. The proposed expansion project consists of improvements to the existing treatment facilities to increase the capacity to 2.5 MGD, and new treatment facilities that would add another 2.5 MGD capacity, bringing the total Adelanto Wastewater Reclamation Facility capacity to 5.0 MGD.	NOP	05/02/2006
2005111117	Citrus Ranch Specific Plan/Annexation Indio, City of Indio--Riverside Annexation into the City of Indio of approximately 1559.85 acres including the Citrus Ranch project (1183.45 acres) and other properties (376.4 acres); General Plan Amendment; Zone Change; Specific Plan; and Large Lot Tentative Tract Map to develop up to 3,200 residences, a golf course, and other amenities. Project also includes a change in the City of Indio Sphere of Influence boundary, to include the entire project site.	NOP	05/02/2006
2006041009	Victorville Retail Project Victorville, City of --San Bernardino The project proposes construction of two "major" retail anchors (parcels 1 and 2) totaling approximately 356,000 square feet, and one (1) ancillary commercial/retail pad within an approximately 40-acre site. A gas station providing sixteen (16) fuel points and an approximately 188 square foot service kiosk is proposed for Parcel 4. The square footage of future building on Parcel 3 is not known at this time, and will be based on specific user requirements.	NOP	05/02/2006
2006041012	City of Bakersfield Wastewater Treatment Plant #3 Expansion & Upgrade Bakersfield, City of Bakersfield--Kern The proposed project consists of expanding the Plant's treatment capacity to 32 million gallons per day (mgd), upgrading the Plant operations to advanced secondary treatment nitrogen removal and the possibility of up to 2 mgd of tertiary treatment, adding mechanical dewatering to the solids handling operations, adding on-site percolation, upgrading the co-generation power capabilities of the Plant,	NOP	05/02/2006

	constructing new buildings to house administration, operations, laboratory, and maintenance activities, and supporting facilities.		
2006041013	<p>Proposed Camarillo Unified School District Organization Ventura County Committee on School District Organization Camarillo--Ventura</p> <p>The project consists of a proposal to form the Camarillo USD from the total territory of the Pleasant Valley and Somis SDs and a portion of the territory of the Oxnard UHSD pursuant to the State of California Education Code. The portion of the Oxnard UHSD that is proposed to be included in the newly formed Camarillo USD is the portion of the district that is coterminous with the existing boundaries of the Pleasant Valley and Somis SDs. As a result of the formation of the Camarillo USD, the Pleasant Valley SD and a portion of the Oxnard UHSD would be unified into a coterminous district supporting Kindergarten (K) through 12th grade education. The Somis SD territory would also become part of the newly created K-12 Camarillo SD, thus allowing it to send its students that have completed the 8th grade into the Camarillo USD high schools. However, the Somis SD will retain its own grade into the Camarillo USD high schools. However, the Somis SD will retain its own grade K-8 governance structure under the provisions of Education Code Section 35542(b) enacted as a part of the Thompson Bill (SB 1537) in 1994.</p>	NOP	05/02/2006
2006041018	<p>Polo Square Indio, City of Indio--Los Angeles</p> <p>The proposed project is located on a 51.65 acre site in the City of Indio along Highway 111 near Shields Road. A 15.33 acre northerly portion is proposed for 122 residential units. Proposed developments on the southerly parcel abutting Highway 111 include:</p> <ul style="list-style-type: none"> - Commercial Retail Uses- 35,000 sf - Commercial Offices- 200,000 sf - Hotel- 250 Rooms - Extended Stay Hotel- 120 Rooms - Residential Condominiums- 450 - Commercial or Public Uses- 35,000 sf <p>The project proposes up to ten buildings with heights up to 130 feet. Project entitlement actions include a General Plan Amendment (GPA), Project Master Plan (PMP), Development Agreement (DA), Design Review (DR), and a Tentative Tract Map (TTM).</p>	NOP	05/02/2006
2006042009	<p>Dutch Slough Restoration Project Water Resources, Department of Oakley--Contra Costa</p> <p>The project is a 1,166 acre tidal marsh restoration project in northeast Contra Costa County. The goals of the project are to:</p> <ol style="list-style-type: none"> 1. Provide shoreline access, educational and recreational opportunities; 2. Benefit native species by re-establishing natural ecological processes and habitats; and 3. Contribute to the scientific understanding of ecological restoration by implementing the project under an adaptive management framework. 	NOP	05/02/2006

	No. 37, and grading in the amount of 19,000 cubic yards to be balances onsite. Future site access for each lot will be taken from private driveways onto Oki Street. A 32' x 2609' strip of the property's frontage along Oki Street will be dedicated for the right of way to the County of Los Angeles. The project site is currently vacant, relatively undisturbed, and requires a Conditional Use Permit for development within a hillside management area.		
2006041005	Central Area In-Situ Remediation Pilot Study Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe --San Bernardino The proposed project involves implementation of a pilot study to evaluate in-situ (below ground surface) remediation technology in a controlled test cell as part of the development of a long-term strategy for remediation of groundwater containing chromium at the Hinkley Compressor Station (the site). The site is located east of the community of Hinkley in San Bernardino County in the Harper Valley Subarea of the Mohave Hydrologic Unit. The proposed pilot study will evaluate in-situ biological reduction of hexavalent [Cr(VI)] to trivalent chromium [Cr(III)] using cross-gradient groundwater recirculation. Reduced conditions will be created from injecting food-grade carbon sources, such as lactate, whey, and emulsified vegetable oil, into the aquifer at the Central Area of the Cr(VI) plume. Prior laboratory and field studies have shown that these injections do not create harmful or long-lasting environmental conditions affecting water quality or public health and safety.	Neg	05/02/2006
2006041006	McClure Point Boat Launch and Parking Lot Improvement Merced Irrigation District --Mariposa Installation of a 2 lane concrete launch ramp over existing dirt ramp. Pavement over existing 2 acre dirt parking area. Installation of a modular, accessible restroom and lift station to transport sewage to existing sewage treatment plant that was designed to accomodate additional load. Relocation of existing overhead electrical service to underground at the road crossing.	Neg	05/02/2006
2006041007	Water System Improvements, Madera County Maintenance District No. 10 Madera County --Madera The project consists of the construction of a potable water supply well and hydropneumatic storage tank. The initial study considers and evaluates all aspects of the project which are necessary to support the proposal.	Neg	05/02/2006
2006041008	Williamson Act Cancellation Preserve 34, Contract 2001-001 & Preserve 34, Contract 2001-002 Imperial County Planning Department El Centro--Imperial Applicant has requested a Williamson Act Cancellation for Preserve #34 Contract 2001-001 and Preserve #34 Contract 2001-002.	Neg	05/02/2006
2006041010	Tierrasanta Townhomes San Diego, City of San Diego--San Diego The construction of 60 residential condominium units and relocate 4 existing wireless telecommunication facilities on a 6.86 acre site at 11445 Tierrasanta Boulevard. The existing one-story church building, YMCA daycare building, and associated surface parking would be demolished.	Neg	05/02/2006

2006041014	San Joaquin Rail Corridor Capacity Improvement Project Caltrans, Planning Shafter--Kern The proposal is to install a second track from Jastro to Shafter to enhance track efficiency within the San Joaquin Rail Corridor. The project will include installing fill adjustment to the existing track, installing the second track over the whole alignment, installing new sidings where needed, upgrading and replacing existing signal systems, and purchase of about 27 acres of new right-of-way along the approximate 108-mile alignment.	Neg	05/02/2006
2006041015	State Route 91 (SR-91)/Van Buren Boulevard Interchange Improvement Caltrans #8 Riverside--Riverside The proposed project will provide ramp improvements, including an eastbound SR-91/Van Buren Boulevard overcrossing (widened from four to six through lanes plus dedicated turn lanes) that will accommodate the ultimate 10-lane SR-91 facility.	Neg	05/02/2006
2006041016	Tentative Parcel Map No. PPM 03-055 Tulare County Resource Management Agency --Tulare A Tentative Parcel Map to divide 36.2 acres into 4 parcels and a remainder parcel in the R-A-43 (Rural Residential-43,000 minimum) zone.	Neg	05/02/2006
2006041017	Precise Plan 2005-0185 - Traffic Way Park Expansion Atascadero, City of Atascadero--San Luis Obispo The proposed project is a City Park Master Plan to allow a 12.5 acre phased development designed to retain and expand Traffic Way Park as follows: replace the existing City Public Works Yard with park development; construct a new outdoor recreation complex and 19,000 square foot indoor recreational youth facility; reconstruct existing recreation sports fields and a 9,800 square foot indoor/outdoor skate and BMX area park (former metal industrial building); add two new batting cages; an indoor/outdoor skate, an outdoor climbing wall, a water spray play area, two playgrounds, two basketball courts, an outdoor stage and amphitheater, a picnic and BBQ area, and a 123-space parking lot with a drop-off area; and designate a future aquatic swim facility. The plan also includes perimeter fencing; walking trail; safety lighting; and retains the existing public restrooms and sewer lift station facility.	Neg	05/02/2006
2006041019	ER 2004-14, TR 877 and 2004-23-CZ/GE Escondido, City of Escondido--San Diego The proposed project involves a Tentative Subdivision Map for 13 single-family residential lots on approximately 3.98 acres of land within the City of Escondido. A Grading Exemption is requested for a fill slope up to approximately 12 feet in height within the southern area of the Avenue, and along the western boundary of Bernardo Avenue. A Zone Change from existing R-1-20 (Single-Family Residential, 20,000 sf min. lot size) zoning to R-1-10 (Single-Family Residential), 10,000 sf min. lot size) zoning also is requested. 2006042001	Removal of the Yolo Basin Experimental Fish Passage Project Water Resources, Department of West Sacramento--Yolo The objective of this project is to remove a fish passage facility (a weir) from the Yolo Bypass Toe Drain. The facility was constructed in 2003 to study movement of fish past a barrier, and was expected to be used for three years. The facility consists of a number of elements, all of which will be removed: 20 vertical steel "H" piles which provide the framework for the structure; 40 steel plates, placed vertically between the "H" piles of the framework; 2 boat ramps; staging area; and the access road from the levee to the boat ramps.	Neg	05/02/2006
2006042002	Norwood Avenue Apartments (P04-191) Sacramento, City of Sacramento--Sacramento The project consists of constructing a 68 unit apartment complex on 3.75 +/- gross acres in the Multi-Family (R-2B-R) zone. The project will consist of five 2-story buildings. The five buildings will consist of two buildings containing 18 units each comprised of 12-one bedroom units and 6-two bedroom units; one building containing 8-one bedroom and 4-two bedroom units, an office, laundry facilities, and storage space; and two buildings containing 10 units each comprised with 4-one bedroom and 6-two bedroom units. A total of 28-two bedroom and 40-one bedroom units. Amenities provided include laundry facilities, 120 parking spaces, a pool, and conference room facilities.	Neg	05/02/2006
2006042003	Pardee at Natomas Sacramento, City of Sacramento--Sacramento The proposed project includes requests for amendments to the General Plan and the North Natomas Community Plan; zoning ordinance amendments; approval of a tentative subdivision map; establishment of a Planned Unit Development (PUD) with related development guidelines and schematic plan; and, PUD Special Permits for construction of residential units. The proposed tentative map subdivides 144 acres into 640 single family lots, one multi-family lot for condominiums, one park lot, one employment center lot and one detention basin lot.	Neg	05/02/2006
2006042005	Bradshaw Road Widening- Calvin Road to Florin Road Sacramento County --Sacramento The proposed improvements will widen the roadway from just north of Calvin Road to approximately eight hundred feet south of Florin Road to accommodate four through traffic lanes, a raised landscaped median, bicycle lanes, separate pedestrian walkway facility, and roadside ditches. The existing box culvert located on Bradshaw Road approximately 620 feet north of Gerber Road will be replaced with a new bridge to accommodate the proposed road widening. The existing bridge at Laguna Creek will be removed and replaced with a new bridge structure that will be 110 feet wide to accommodate not only the proposed widening of the roadway, but also the ultimate six-lane improvements. A raised twelve-foot wide landscaped median will be constructed for the length of the project corridor. Median openings to accommodate U-turn movements will be incorporated into the design. Two-foot wide medians will be constructed for the approaches to Bradshaw Road and Gerber Road. A new modified traffic signal will be installed at the intersection of Bradshaw Road at Gerber Road. Two new signals will be installed at the intersections of Carmencita Avenue and Knightview Court with Bradshaw Road.	Neg	05/02/2006

2006048004	Rose Canyon Creek Restoration Project Pit Resource Conservation District --Modoc The Pit Resource Conservation District (PRCD), with funding provided from state and federal grants, will use contractors to design and accomplish a creek restoration on Rose Canyon Creek. The project will consist of using a "plug and pond" technique to block an eroding, artificial channel that has downcut through a historical meadow. Junipers and excavated material adjacent to the channel will be used to "plug" the channel and stop water flow. The seasonal water flow down Rose Canyon will be allowed to spread out and permeate the entire valley, which will re-hydrate the site and gradually re-establish the meadow conditions. The project will be monitored by the U.S. Forest Service and the Pit Resource Conservation District and its Technical Advisory Committee to determine if the goals have been met. This type of project has been completed and been successful in a number of similar project sites in northern California. The Pit RCD has approved this project.	NOE

2006048046	Transfer of Coverage to Placer County APN 94-221-04 (Niles-Grigoleit) Tahoe Conservancy Unincorporated--Placer Project consists of the sale and transfer of 1,885 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2006048047	Transfer of Coverage to El Dorado County, APN 15-154-02 (Lewin) Tahoe Conservancy Unincorporated--El Dorado Project consists of the sale and transfer of 420 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2006048048	Rainbow Conservation Camp Sewer Treatment Facility Forestry and Fire Protection, Department of --San Diego The Region 3 construction staff shall construct two small non-inhabitable buildings for purposes of sewer treatment. One building will serve as a laboratory for sewer testing and will total 600 square feet. The second building will be a sewer treatment building, and will total 200 square feet.	NOE	
2006048049	Bautista Conservation. Camp: Septic System Improvement Forestry and Fire Protection, Department of Hemet--Riverside The project is necessary to meet the health and safety code requirements for a state correctional facility and to meet current water treatment standards by upgrading the existing septic system at the Bautista Conservation Camp. The current septic tanks are under-capacity for the camp needs and the two existing leachfields are clogged with solids and hydrologically overloaded due to lack of detention time in the septic tanks. This project involves excavating and backfilling new trenches, and installing the following new components: (1) a new 20,000 gallon septic tank adjacent to existing tanks, (2) two new 3,000-gallon kitchen grease interceptors to replace a 1,000-gallon interceptor, and a new lint trap for two commercial laundry machines, (3) a new distribution box, manholes and pipeline to the leach fields, and; (4) five new leach fields to supplement two existing fields.	NOE	
2006048050	Utility Installation, Resource Office LPSRA (05/06-IE-26) Parks and Recreation, Department of --Riverside Installation of utilities into existing garage structure in order to convert use to office space.	NOE

2006042013	Parcel Map 2006-11 Jeffrey Arambel Stanislaus County Patterson--Stanislaus Proposed project is to subdivide approximately 7738.6 acres in 85 parcels of 40+ acres in A-2-40 zone, and 27 160+ acre parcels in A-2-160 zone, all under the Williamson Act. Considered Non-prime unirrigated rangeland used for seasonal cattle grazing. Stated purpose is for maximum financial flexibility.	CON	04/20/2006
1999062020	Placer Vineyards Specific Plan Revised Draft EIR (PEIR T200540651) Placer County Planning Department The Placer Vineyards Specific Plan project is a mixed-use master planned community with residential, employment, commercial, open space, recreational and public/quasi-public land use. The Plan provides for 14,132 homes in a range of housing types, styles, and densities. At Plan build out, projected to occur over a 20 to 30-year time frame, Placer Vineyards will have a population of approximately 33,000 people, 422.5 acres of employment centers, 140 acres of retail commercial centers and approximately 930 acres of new parks and open space.	EIR	05/18/2006
2003101096	Solid Waste Disposal/Transfer Options for Western Merced County Merced County Los Banos--Merced The Billy Wright Landfill (BWL), which currently serves the municipal solid waste disposal needs of western Merced County, is expected to reach its permitted capacity by approximately the end of the decade. The purpose of the proposed project is to provide for the future municipal solid waste disposal needs of this part of the County. Future disposal facility capacity needs for western Merced County were developed based on population growth rates projected in the 2001 Regional Transportation Plan (Transportation Plan) (MCAG, 2001) and the County's experience from operating the BWL. The Transportation Plan anticipates that the population of the communities of western Merced County will roughly double between 2000 and 2020, equivalent to an average annual growth of approximately 3.5%. The three principle waste streams received at the BWL are municipal solid waste receipts disposal at the landfill, green waste composted at the facility, and some construction and demolition (C&D) material that is processed and recycled. The six project options evaluated in this EIR would accommodate the projected increase in waste disposal or waste transfer needs.	EIR	06/05/2006
2004041044	Shadow View Specific Plan Coachella, City of Coachella--Riverside The proposed Shadow View Specific Plan would facilitate the development of a residential community and a mixed-use commercial center on approximately 529 acres. Planning Area No. 1 would contain the mixed-use commercial component with a maximum of 1,000,000 square feet on approximately 100 acres. Planning Area No. will also include a residential overlay with the potential to include up to 1,000 high-density residential dwelling units. Planning Area No. 2 would contain the residential and include 1,600 dwelling units on approximately 380 acres. Planning Area No. 3 would include a 40-acre plus public park and Planning Area No. 4 would consist of dedications for a fire station, an electrical substation and a well site totaling approximately 5 acres. 	<p>The Plan has identified a restoration alternative to restore the biological and physical functions of the lagoon, including management of water, habitat and access, as well as a comprehensive monitoring plan, while minimizing impacts to the existing system. The restoration goals for the lagoon consist of increased tidal flushing, improved water circulation, improved coastal water quality, increased holding capacity, reduced predator encroachment, restoration of typical salt marsh hydrology, increased wildlife habitat, creation of nesting island for least terns and western snowy plovers, creation of channel connections to the lagoon, and integration of public access with habitat protection. Major components of the Plan consist of a relocated parking lot and staging area, implementation of Best Management Practices to minimize impacts of storm water runoff, slope improvements to the western edge of the lagoon, improvements to the existing boat house channel, and the creation of a new channel along the southern edge of the west lagoon.</p>		
2006041026	<p>Tentative Tract Map No. 062998 Lancaster, City of Lancaster--Los Angeles</p> <p>The proposed project would involve the subdivision of approximately 10.6 acres, located at the northeast corner of Avenue M and 32nd Street West, into 15 single family lots.</p>	MND	05/03/2006
2005081073	<p>Water Supply and Wastewater Master Plans Santa Nella County Water District --Merced</p> <p>Use of the proposed primary effluent disposal sites would require construction of pipelines, storage ponds, and return pump stations. Pipelines would deliver effluent from the wastewater treatment plant to the proposed treated effluent storage reservoirs. Two pipelines would convey the effluent from the treated effluent storage reservoirs under Outside Canal and distribute the effluent to the northern and southern disposal areas. A tailwater pond and pump station would be constructed in the northeastern corner of the northern and southern disposal areas to collect excess treated effluent that drains from the site and return it to the storage reservoirs. Tailwater collection ditches would be located along the northern and eastern boundaries of each disposal area. Tailwater return pipelines would be located along the eastern border of the northern disposal area and the northern border of the southern disposal area.</p>	NOP	05/03/2006
2006041023	<p>County of Los Angeles Fire Station 108 Los Angeles County Fire Department --Los Angeles</p> <p>The proposed project consists of the construction of a new fire station that would service the local existing and anticipated needs of the growing community. The major elements of the proposed project and the potential construction scenario include 1.41 acres of a graded pad at 28799 North Rock Canyon Road in the unincorporated area of Santa Clarita, Los Angeles County. The two-story fire station would house office space and living quarters in approximately 3,571 square feet. The station garage would provide apparatus parking in approximately 1,251 square feet. The exterior of the structure would be designed like the adjacent existing tract houses. Firefighters will be on site in rotating shifts: three firefighters will be scheduled per 24-hour shift and a fourth firefighter as needed per 12-hour shift. The fire station would be equipped with one fire engine, one patrol vehicle, and a 1,000-gallon diesel tank that would be located at the rear of the station for fueling the fire engine and patrol vehicles. A diesel-powered generator would be</p>	NOP	05/03/2006

2006022066	Rainbow Self Storage, Indianola Cutoff Eureka, City of Eureka--Humboldt The applicant is requesting approval of a coastal development permit for the construction of an approximately 95,753 square foot self storage facility on a 3.68 acre parcel. The project will be constructed in two phases. Phase One will include the construction of four one story self storage buildings totaling about 27, 025 square feet. Fencing, landscaping and resurfacing of the existing asphalt is included in Phase One. The existing subsurface stormwater drainage facilities will be utilized; no additional expansion of the existing asphalt is planned or requested. Three of the five separate parcels, APN's 501-261-017, -020, &-021, will be merged to facilitate Phase One. Phase Two will include the construction of nine additional self storage buildings totaling approximately 39,350 square feet; a caretakers/watchman apartment unit. Also included in Phase Two is the conversion of the existing approximately 29,368 square foot theater building into storage units. Should it be determined that retrofitting and remodeling the existing theater building is not feasible, the project includes the demolition and reconstruction of self storage facilities of the same size, approximately 29,378 square feet. Fencing, landscaping and resurfacing of the existing asphalt will also be included in Phase Two. Again, the existing subsurface stormwater drainage facilities will be utilized for Phase Two; no additional expansion of the existing asphalt is planned or requested.	NOD	
2006022085	Highlands Place (Tentative Subdivision Map No. 05-10, General Plan Amendment No. 05-07, Zoning Change No. 05-14) Oroville, City of Oroville--Butte A proposal to amend the land use designations of 9 properties totaling 1.63 acres to increase allowable density from six to fourteen homes per acre as a Planned Unit Development, and to subdivide the site into 18 lots for single-family homes.	NOD	
2006022086	Butte Woods (Tentative Subdivision Map No. 05-08) Oroville, City of Oroville--Butte A proposal to subdivide the site into 164 lots for single-family homes.	NOD	
2006022116	Manabe Wetland Restoration Project Watsonville, City of Watsonville--Santa Cruz The project consists of wetland and riparian restoration and pedestrian pathways. The 25-acre site currently supports a channelized section of Watsonville Slough and agricultural lands. The site will be re-contoured to create a mosaic of channels, islands, and floodplain benches on the southeastern bank of Watsonville Slough. The restoration area will be revegetated native plant species.	NOD	
2006049002	Lake or Streambed Alteration Agreement (Agreement) No. 05-0519 for Timber Harvesting Plan (THP) 1-05-230DEL Forestry and Fire Protection, Department of --Del Norte The Department of Fish and Game is issuing an Agreement for the replacement of 13 permanent culverts, installation of one temporary crossing, and the removal of 3 existing crossings. 2006049003	Amendment to the Water Quality Control Plan for the San Diego Region to Incorporate Total Maximum Daily Loads (TMDLs) for Total Nitrogen and Total Phosphorus in Regional Water Quality Control Board, Region 9 (San Diego), San Diego Fallbrook--San Diego Basin Plan amendment to incorporate implementation provisions for nitrogen and phosphorus TMDLs for Rainbow Creek Watershed, San Diego.	NOD	
2006049004	Phase (20 acres) of Canaday & Company's Residential Subdivision in Adelanto, TT16930 Adelanto, City of Adelanto--San Bernardino The project involves the development of approximately 20 acres of undeveloped land into a single family residential neighborhood. The Department is issuing an Incidental Take Permit for the Mohave ground squirrel, which is protected by the California Endangered Species Act and which could be taken as a result of the project.	NOD	
2006048044	Lucky 5 Ranch Temporary Equestrian Camp (05/06-CD-15) Parks and Recreation, Department of --San Diego Construction of a temporary small-scale rustic equestrian camping facility. Currently, there is a day-use trailhead parking lot, double vault toilet facility, solar-powered well pump, and 500 gallon livestock tank on-site. This project will provide 10-14 temporary campsites along an existing ranch road between County Road S-1 (Sunrise Hwy.) and the existing livestock tank. Grading will be confined primarily to the existing road, and the creation of a small loop road near the existing windmill/livestock tank. The existing day-use area will be enhanced and expanded along Sunrise Hwy. to better accommodate horse trailers and public parking, and to improve drainage. The expanded day-use parking area will be approximately 200' by 100' in an already disturbed area adjacent to Sunrise Hwy. The day-use area will be a permanent facility, but the campsites will be removed once a permanent camping facility is built (by 2008-9). This temporary camping and day-use facility is being constructed to temporarily replace equestrian camping facilities lost in the Cedar Fire of October 2003. The project will ensure that potential adverse visual impacts to persons on nearby Sunrise Hwy. are minimized. The temporary camping area will be restored to original contours and native vegetation at the end of the project. No impacts to sensitive natural or cultural resources are anticipated.	NOE	
2006048051	New Traffic Signals at University Drive and San Joaquin Irvine, City of Irvine--Orange The City of Irvine proposes to install a traffic signal and four-way crosswalk at the intersection of University Drive and San Joaquin. Currently, stop signs are located on San Joaquin, while traffic on University Drive does not stop. The proposed traffic signals and four-way crosswalk would increase public safety in the area. The proposed project will involve the installation of a four-way crosswalk, installation of a new traffic signal system (30 foot poles, 250 watts), the installation of network communication equipment and the installation of fiber optic cable. Construction will require removal and replacement of existing concrete facilities (curb, gutter, sidewalk, access ramps, etc.). An easement from the County of Orange is required for installation of equipment at the entrance to the William R. Mason Regional Park.	NOE

2006048066	<p>Elder Creek at South Watt Avenue Signal Project Sacramento County Dept. of Environmental Review --Sacramento</p> <p>The project includes the installation of a new traffic signal at the intersection of Elder Creek Road and South Watt Avenue. Construction of an asphalt pedestrian landing pad on the southwest quadrant and ADA compliant sidewalk ramps on the southeast and northwest quadrants of the intersection are also included as part of the project. In addition, the existing sidewalk ramps on both corners at the intersection of Elder Creek and Turner Road will be reconstructed to comply with ADA requirements. Other improvements include the construction of a 1-foot raised median on the north leg of the intersection. Furthermore, the current state of the asphalt warrants an overlay along the north and south legs of South Watt Avenue and the east leg of Elder Creek. The west leg of Elder Creek will be slurry only.</p> <p>The installation of the new traffic signal will require moderate widening on all four legs of the intersection at Elder Creek Road and South Watt Avenue to accommodate the proposed striping.</p>	NOE	
2006048067	<p>Fawn Way Use Permit Sacramento County Dept. of Environmental Review Sacramento--Sacramento</p> <p>The proposed project consists of a Use Permit to allow a 4-unit multiple family development on a 0.469 +/- acre parcel zoned BP.</p>	NOE

2006041027	<p>Santa Barbara Botanic Garden Vital Mission Plan, 72-CP-116 Rv01 Santa Barbara County --Santa Barbara</p> <p>A total of 30 existing buildings on the property consist of approximately 39,030 square feet of floor area (this floor area includes portable shade structures/canopies used for horticulture). Of the existing 30 structures, 7 buildings with a combined square footage of 6965 s.f. would be demolished, one structure (the Gane House) would be reduced in size from 9,318 s.f. to 8,178 s.f. (-1,140 s.f.) and restored to its original condition, and 3 structures would be expanded to add a total of 1074 s.f. The proposed floor area changes to existing structures would result in a net reduction to existing development square footage by 7,031 s.f. (-8,105 s.f. + 1074 s.f.) leaving 31,999 s.f. of floor area associated with existing structures. Three existing structures would be relocated on site with no change in floor area.</p>	NOP	05/04/2006
2006041028	<p>West Artesia Boulevard Commercial Highway Planning Area Specific Plan Bellflower, City of Bellflower--Los Angeles</p> <p>The Bellflower Redevelopment Agency in 1991 approved the Bellflower Redevelopment Project No. 1 Plan, which considered methods to eliminate and prevent the spread of blight; and to revitalize, redevelop, and upgrade those parcels and properties within the redevelopment area; thereby, strengthening the City's economic base. The proposed West Artesia Boulevard Specific Plan area is included within the Bellflower Redevelopment Project No. 1 area and accordingly, the West Artesia Boulevard Specific Plan facilitates and implements the objectives of the redevelopment plan. The West Artesia Boulevard Specific plan area also possesses significant opportunity for economic commercial redevelopment, given its proximity to the 91 Freeway, between Downey Avenue and Lakewood Avenue. The Land Use Plan for the West Artesia Boulevard Specific Plan proposes future commercial development that is consistent with the underlying General Plan, Zoning, and Redevelopment Plan designations for the subject area which include General Commercial (C-G) and Open Space (OS). At this writing, there is no actual development being proposed. As future development is proposed, the City will review and approve the design of each development to ensure consistency with the proposed West Artesia Boulevard Specific Plan.</p>	NOP	05/04/2006

	reconfigured main park entrance, expanded parking area and landscape improvements, and additions/improvements to outdoor interpretive exhibits, walks, and signage.		
2005031072	Density Bonus Amendment - ZCA 04-10 / LCPA 04-17 Carlsbad, City of Carlsbad--San Diego The project consists of a General Plan Amendment, Zone Code Amendment and Local Coastal Program Amendment to amend the term "density bonus program" in the General Plan, and amend the density bonus and inclusionary housing regulations in the Zoning Ordinance to ensure consistency with California Government Code Sections 65915 through 65917.	NOD	
2005122008	Proposed Extension Petition for the Interim Instream Flow Requirements Under State Water Resources Control Board Revised Water Right Decision 1644 Yuba County Water Agency Marysville--Yuba Yuba County Water Agency (YCWA) filed a petition for modification of water right permits 15026, 15027, and 15030. The petition requests that the State Water Board change the effective date of the long-term flow requirements established in Revised Decision 1644 to March 1, 2007. The long-term flow requirements are scheduled to come into effect on April 21, 2006. Until that date, RD-1644 requires YCWA to maintain instream flows in the lower Yuba River that are equal to or greater than specific interim flow requirements. The interim and long-term flow requirements established in RD-1644 vary depending upon the time of year and the hydrologic conditions in a particular year. The long-term flow requirements are higher than the interim requirements during parts of some years, but are the same as the interim requirements for water years that are classified as wet or above normal under the criteria specified in RD-1644. The petition was submitted in order to allow for implementation of the 2006 Pilot Program for the proposed Yuba River Accord (Accord) which was developed to help resolve conflicts and ongoing litigation related to stream flows and water use in the lower Yuba River.	NOD	
2005122012	RD108 Combined Pumping Plant and Fish Screen Project (Poundstone) Reclamation District No. 108 --Colusa, Yolo The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0237-R2 pursuant to Section 1602 of the Fish and Game Code to the project operator, Reclamation District 108 of Grimes, CA: Decommission three water diversions; install one new facility with fish screen.	NOD	
2006011099	Round Valley Meadow and Stream Headcut Repair and Elevation Restoration Parks and Recreation, Department of Palm Springs--Riverside The project proposes to restore the hydrology of the Round Valley meadow by restoring the natural drainage pattern of an unnamed stream draining the meadow. Approximately 700-900 cubic yards of soil from adjacent upland sites will be excavated to fill the eroded channel using a small backhoe-loader and CCC work crews with hand tools. The project requires an exception to the prohibition against mechanized equipment in State Wilderness. The backhoe-loader will be dropped into a small clearing by helicopter. The slopes will be contoured and revegetated to restore natural appearance.	NOD

2005111106	Adult School at East Los Angeles Star Community Hospital Los Angeles Unified School District Los Angeles, City of--Los Angeles The proposed project entails the conversion of the existing and currently vacant East Los Angeles Star Community Hospital building and medical clinic to an adult school facility. Approximately 111,100 square feet of building space, including approximately 60 new teaching stations, would be available to serve up to 4,200 adult students per day or approximately 1,750 adult students at any given time. The proposed project includes: (1) The existing vacant three-story East Los Angeles Star Community Hospital would be renovated to include approximately 103,100 square feet of education space, including classrooms, administrative offices, a food service area, computer labs/shops, medical training areas, and a childcare facility for young children of adult school students, (2) A new shop building area of approximately 8,000 square feet would be constructed on the southeast corner of Humphreys Avenue and Cesar E. Chavez Avenue and would be used for technical training, such as electrical, plumbing, masonry, and carpentry training. An existing vacant single-family residence, a vacant convent building, and three modular trees related to the vacant medical clinic would be demolished to make room for off-street parking area. Two of the three modular buildings would be demolished prior to the implementation of the temporary facilities (Interim housing portables). The modular building adjacent to New York Street would be used as temporary administrative facilities (Administrative building) during Phase I of construction.	EIR	05/22/2006
2004062016	Baldwin Hallwood Mine Expansion Yuba County Marysville--Yuba The proposed operation (Project) consists of sand and gravel extraction in a manner similar to that performed at Baldwin's existing Hallwood Plant. The mined materials will be processed at Baldwin's existing aggregate plant immediately south of the Project Site's southern boundary. This project is an expansion of an existing quarry. Baldwin's application proposes one vertical phase and 11 lateral phases with active mining at the project site for 22 to 44 years.	FIN	
2006042039	Carlotta Shoulder Widening Project Caltrans #2 Fortuna--Humboldt The California Department of Transportation (Caltrans), in cooperation with the Federal Highway Administration (FHWA), is proposing to improve safety by widening the shoulders along State Route 36 in and adjacent to the community of Carlotta, Humboldt County. The project proposes to construct 1.7 miles of 4.9 foot shoulder on both sides of the highway, to improve some roadway drainage, to construct a left-turn channelization at Wilder Road, to re-stripe the centerline with double yellow lines, to construct Gateway Features at both ends of the community, and to overlay the existing pavement with open graded asphalt concrete. As a consequence of this project, this alternative will include relocating fences, mailboxes, utility poles, and will replenish landscaping.	JD	05/08/2006

2006048116	Archaeological Test for Accessibility Project Parks and Recreation, Department of --San Diego The project consists of archaeological testing within the Stonewall Mine Day-Use area at the proposed locations of new accessible visitor facilities. The testing will consist of probing for structural remains and excavation using hand tools, creating a photographic record, surface scraping, test units, other accepted archaeological data collection protocols, and report preparation.	NOE	
2006048121	Display Case Installation / Pioneer Cemetery Parks and Recreation, Department of --Napa Project consists of erecting one ADA outdoor display case, compliant with the American's with Disabilities Act, to provide public notificaitons, display trail informaiton, and help interpret the cementary's development. Construction will meet accessible clear space and vertically mounted display case standards. Sign will be located adjacent to the "History Trail" day use turn around. Project supports visitor services.	NOE	
2006048122	Frenchman Lake Vault Toilet Replacement Boating and Waterways, Department of --Plumas This project will remove the existing restroom building and install a new restroom building at the same location.	NOE	
2006048125	Geotechnical Testing for Two Overlapping PSUSD School Sites Palm Springs Unified School District Desert Hot Springs--Riverside PSUSD wishes to construct a temporary trench for the purposes of geotechnical testing to identify the possible location of an earthquake fault for a potential elementary school site. The PSUSD anticipates digging a fault investigation trench across the sites to a depth of 20-30 feet - the trench will be backfilled as soon as testing is completed. The PSUSD will benefit by knowing if the overlapping sites are suitable for school facilities.	NOE

<u>Documents Received on Monday, April 10, 2006</u>			
2004122132	Villages of San Jacinto San Jacinto, City of San Jacinto--Riverside The proposed project will consist of a suburban development including residential, commercial, business park, public facility and open space uses. Residential land uses would be located in the northwestern and central portions of the project site. Commercial development would be focused on the southeast corner of the project site. Business park development would be focused on the southwestern corner of the project site. One elementary school and one high school are planned in the northeastern portion of the site. Should these sites not be ultimately purchased and developed by the San Jacinto Unified School District, they could be developed with residential land uses. A total of 100.7 acres of the site will be reserved for open space uses including four neighborhood parks, a greenbelt system, three lakes and landscape easements. A community center/clubhouse will be located in the central portion of the site. Sanderson Avenue and Odell Avenue would serve as the primary access points for the project.	EIR	05/24/2006
2005122025	HP/JMC Rezone Roseville, City of Roseville--Placer The project proposes to change the land use designations to allow development of a mixture of residential, commercial, business professional, and educational land uses on 254 acres and to expand industrial development within existing 198-acre campus.	EIR	05/25/2006
2006021013	Del Norte High School Poway Unified School District San Diego--San Diego The construction and operation of a new 2,500 student high school on a vacant 62-acre site located both in the city of San Diego and in unincorporated San Diego County. The school would contain 34 regular classrooms, 12 science classrooms, 5 special education classrooms, 5 arts/crafts classrooms, one drama classroom, 4 business classrooms, 4 consumer education classrooms, 3 technical classrooms, 2 music classrooms, and 6 physical education classrooms. A variety of recreational facilities would also be located on the site, including two soccer fields, two softball fields, two baseball diamonds, a football practice field, a football/track and field turf area, a number of hard court surfaces for basketball and tennis, and a pool.	EIR	05/24/2006
2006041054	ExxonMobil M-70 Pipeline Replacement under the Santa Clara River Fish & Game #5 Santa Clarita--Los Angeles The proposed project will replace ExxonMobil's existing M-70 crude oil pipeline in the Santa Clara River bed in Santa Clarita, with a new pipeline of the same diameter by boring approximately 55 feet beneath the lowest part of the riverbed at this location for a length of approximately 1,300 feet. The objective of the proposed project is to rebury the pipeline to a level well below the scour depth of the Santa Clara River since recent substantial scouring has resulted in the current level of cover over the pipeline being somewhat less than five feet of sediment. The installation and testing of the new pipeline will require approximately four weeks.	MND	05/09/2006

There are 63 water connections in the DCSD water system, and the property owners holding these water connections will be the beneficiaries of the project.	NOE	
2006048112	Temporary Installation of Audio Visual Cabling Parks and Recreation, Department of Pacific Grove--Monterey Temporary installation of video conferencing cable between the Merrill Hall and the Chapel at Asilomar Conference Grounds. Proposed route for cabling would be installed between Merrill Hall and Viewpoint and Social Hall using trees as supports. It would cross over the road way, go through "ecology" below Whitecaps and terminating at Chapel.	NOE	
2006048113	Cal-Trans Road Repair for Highway 150 Fish & Game #5 --Ventura The Operator intends to alter the streambed to repair Highway 150 at 6 sites where the winter storms damage the rock slope protection. Large ungrouted rock will be placed within the high water line, and gabions, which shall contain soil and plants, will be placed above the rock. Eroded areas will be filled to match the existing bank. Most of the areas have eroded parts of the roadway, or the shoulder, leaving a vertical bank.	NOE	
2006048123	Eastern Recycled Water Pump Station Expansion Las Virgenes Municipal Water District Calabasas--Los Angeles The proposed project includes the replacement and renovation of the three existing pumps with pump units of greater capacity and efficiency; upgrade of existing 6-inch and 8-inch pipelines between Cordillera Tank and Discharge 005 for more efficient reducing station at Discharge Facility 005.	NOE	
2006048124	Tehama West Watershed Assessment Tehama County Planning Department Red Bluff, Corning--Tehama The Tehama West Watershed Assessment project entails the preparation of a watershed assessment of the Westside tributaries to the Sacramento River located within Tehama County California. Project components include an assessment document, GIS layers and maps, as well as acquired published data that will be incorporated into the Western Shasta Resource Conservation District's Watershed Information Model database.	NOE

2005041006	South Region High School No. 7 Los Angeles Unified School District Huntington Park--Los Angeles The proposed project consists of construction and operation of a new high school that would provide 1,620 two-semester seats to relieve an existing overcrowded Huntington Park High School. The proposed project would be located on a 12.6-acre area and would include approximately 161,000 square feet of development, consisting of 60 classrooms, a performing arts enter, administrative offices, maintenance and operations/support, and police/security office.	EIR	05/25/2006
2005092096	Lodi Annexation Lodi, City of Lodi--San Joaquin There are three project components: the Westside Project, the Southwest (SW) Gateway Project, and other areas to be annexed. The Westside Project would develop 151 acre site with 740 residential units, a future school site, and parks/basins/recreation facilities. The SW Gateway Project would develop 257 acres with 1,350 residential units, a future school site, parks, and basins. One acre of the SW Gateway site may potentially be used as a fire station in the future. The other areas to be annexed include 48 acres and 12 parcels. While no specific development has been proposed for these parcels, it is assumed that the parcels would be developed with residential units. A total of 457 acres would be annexed into the City of Lodi.	EIR	05/25/2006
2006011002	Rawlings Reservoir Replacement Project Tustin, City of Tustin--Orange Replacement of existing 3.82 MG reservoir tank with two new 3.0 MG each reservoir tanks.	FIN	
2005052022	Fish Barrier Weir and Ladder Modification Project at the Coleman National Fish Hatchery Bay-Delta Authority, California Anderson--Shasta, Tehama The project consists of the following specific objectives to meet the purpose and need of improving fish passage and management capabilities at the Coleman NFH: -Modify the existing barrier weir by adding a 2-foot wide lipped crest cap and a 10.5-foot overshot gate. The crest cap will provide 100 percent blockage to upstream migrating salmonids at flows up to 800 cfs. -Fish ladder modifications include constructing a new ladder structure containing two fors, one leading directly to the existing Coleman NFH adult holding ponds and the second providing access to Battle Creek upstream of the barrier weir.	JD	05/10/2006
2006041068	PLN040502 - Whisler Monterey County Planning & Building Inspection Carmel--Monterey The project consists of a Combined Development Permit for improvements and modifications to an existing road that includes: (a) a coastal development permit for improvements and modifications to an existing road of approximately 1.5 miles in length within 100 feet of a riparian environmentally sensitive habitat area (ESHA), including grading with 690 cubic yards of fill and 30 cubic yards of cut; (b) a coastal development permit for development on slopes of 30% or greater; (c) a coastal development permit for tree removal (25 trees: 7 of which are in excess of 12 inches, including one landmark western sycamore which is 27 inches dbh (diameter	MND	05/10/2006

	at breast height); (d) a coastal development permit for development within 750 feet of a known archaeological resource; and (e) design approval.		
2006042055	Pioneer Reservoir Phase I Seepage Berm Project Reclamation Board Sacramento--Sacramento The project involves the construction of a seepage berm approximately 500 feet long and 50 feet wide along the landside of the Sacramento River east bank levee at RM 58.5; and the installation of 5 relief wells adjacent to the seepage berm. The berm would be constructed with drain rock and water from the berm and the wells would be discharged into the adjacent City of Sacramento wastewater system where it would be treated.	MND	05/10/2006
2006042062	Fountain Alley Mixed Use Development Project Supplemental EIR (File No. H06-005) San Jose, City of San Jose--Santa Clara Planned Development Rezoning for a mixed-use building 15,560 square feet of retail, 223 residential units (186 high-rise and 37 low and mid-rise units), and 464 parking spaces, (292 residential spaces, 172 commercial spaces) on the project site. The building elements range from approximately 48 feet to 253 feet in height. All vehicular ingress and egress to the development will occur on the southern portion of the property off South Second Street.	NOP	05/10/2006
2006021090	Conditional Use Permit Application No. C-06-011 Fresno, City of Fresno--Fresno Construct water well pump station 337, which will pump ground water into the City's municipal water distribution system.	Neg	05/10/2006
2006041067	Nipomo Oaks Tract Map and Conditional Use Permit ED 05-191 San Luis Obispo County Nipomo--San Luis Obispo Request by Nopomo Oaks for a Vesting Tentative Tract Map and Conditional Use Permit to subdivide an existing 3.0 acre parcel into twenty-seven parcels including: twenty-four residential parcels ranging in size from approximately 2,430 to 2,748 square feet each, two parcels for common active recreation area, parking, and drainage, and a 1 acre remainder parcel. The project includes approval for the construction of 24 single family residences ranging in size from 1,352 to 1,584 square feet. The project includes off-site road improvements to Hill Street and Tanis Place. The project will result in the disturbance of approximately 2.04 acres of a 3.0 acre parcel. The proposed project is within the Residential Multi-Family land use category and is located on the north side of Hill Street, approximately 900 feet west of South Frontage Road in the community of Nipomo. The site is in the South County (Inland) planning area.	Neg	05/10/2006
2006042056	Arcata Baylands Enhancement/Restoration Project Arcata, City of Arcata--Humboldt USFWS National Coastal Wetland grant funds will be used to acquire a total of 68.3 acres of additional wetland habitat, 64.9 acres is in the Jacoby Creek/Gannon Slough area and 3.4 acres is in the McDaniel Slough area. In addition the project will restore and enhance 82.4 acres in both slough areas.	Neg	05/10/2006

2005121095	Ocean Beach / Hotel Circle Place Bikeway San Diego, City of --San Diego Site Development Permit and Coastal Development Permit to allow for the construction of a Class I and III bike route. The extension of the existing Ocean Beach Bike Path to Hotel Circle Place would be approximately 4,100 lineal feet (LF) to be utilized by both pedestrians and bicyclists. The bikeway would be approximately a 10-foot-wide permanent porous concrete path with an additional two-foot-wide shoulder and/or clear zone on either side. The bikeway extension is located within the San Diego River area. The project alignment is within the OF-1-1, IL-3-1, and the RS-1-1 zones of the Mission Valley Community Planning Area of the City and County of San Diego.	NOD	
2006021094	Expansion of the Oliver P. Roemer Filtration Center West Valley Water District Rialto--San Bernardino The proposed improvements will change the facility from a package plant consisting of a two stage process that is limited to coagulation and filtration to a four stage process, which is considered a full conventional plant, through the use of additional stages involving flocculation and sedimentation.	NOD	
2006049017	V. Sattui Winery Certificate of Extent of Legal Non-Conformity Napa County St. Helena--Napa Determination of the extent of legal nonconformity to recognize weddings and receptions conducted seasonally from March through October at the winery, for a maximum of 250 guests.	NOD	
2006048126	Replace Comfort Station and Improve Accessibility Parks and Recreation, Department of --Shasta Improve accessibility of public amenities on the peninsula (boat launch facility) at Lake Britton in McArthur Burney Falls Memorial State Park. Replace the existing comfort station, provide utility connections, demolish the existing building, and provide an ADA-compliant path of travel. Phase I: Conduct a subsurface archaeological investigation to determine the presence or absence of cultural resources in the immediate project area. Archaeological site CA-SHA-418 is located in the project vicinity and could extend into the project's area of direct impact (ADI). Approximately two to four test units no more than 50 x 50 cm each will be excavated using hand tools in 10 cm increments to a depth adequate to determine presence or absence of intact archaeological deposits in the ADI. Excavated soils will be screened through 1/4-inch mesh and all units will be immediately backfilled with excavated soils on completion of the investigation. This investigation will aid in determining whether the project will have an impact on the cultural resources in the area. If testing indicates potentially significant cultural resources are present in the ADI, then project conditions or mitigation measures will be developed to avoid or reduce such impacts. Phase II: If no potentially significant cultural resources are found in the ADI during Phase I the Department may proceed with the following project activities: (1) Provide a new comfort station building with 2 unisex ADA compliant toilet stations and 4 unisex typical toilet stations; (2) provide for utility connections (sewer and water) and add a conduit from the utility chase to the exterior of the building for future electrical expansion; (3) demolish and remove existing building; and (4)	NOE

	provide ADA-compliant path of travel connection from new comfort station to existing accessible path of travel.		
2006048127	Berryessa Peak Communication Site Access Road Repair and Erosion Control Transmission Agency of Northern California --Yolo The work includes the replacement of two culverts on the access road to the Berryessa Peak Communication Site, and stabilization of the down-slope soils. The two ditch relief culverts, located about 0.2 miles apart, are perforated and continue to be vulnerable to down slope undermining and potential failure if the substratum becomes saturated. Additional work is needed to replace the culverts and stabilize the supporting road drainage features. Planned work includes installation of new headwall structures, culverts, riprap, geotextile fiber, and provide other materials and services, including revegetation.	NOE	
2006048128	Irrigation Valve Repair Estudillo Garden (05-06-SD-38) Parks and Recreation, Department of --San Diego This project consists of the replacement of existing leaking valve in the existing irrigation system in the front quads of the Estudillo garden. This will require digging two 18" x 12" holes which will be monitored by a DPR archaeologist.	NOE	
2006048129	Restroom Accessibility Improvements Parks and Recreation, Department of --Riverside Modify two existing restrooms (at Moreno Beach and the Group Picnic Area) and one existing combination restroom/shower building (at the Group Campground) to meet ADA requirements. All work will take place to the interior of the buildings, with the exception of modification of one exterior concrete walkway. The project will include changing interior partitions to create accessible stalls and replacement of some interior plumbing features with accessible features. There will be no ground disturbance. If nesting birds are found to be present in the structures, construction work will not occur until the young have fledged the nests.	NOE	
2006048130	Shaw Conservation Easement Fish and Game, Lands and Facilities Unincorporated--Shasta To acquire 10 acres of land in form of a Conservation Easement for the protection of habitat.	NOE	
2006048131	Disinfectant Residuals, Byproducts and Precursors in Drinking Water Health Services, Department of -- On December 16, 1998, federal regulations were promulgated that required water systems to comply with a combination of new maximum contaminant levels (MCLs), maximum residual disinfectant levels (MRDLs), and a treatment technique to improve control of disinfectants and disinfection byproducts. The Disinfectants/Disinfection Byproducts Rule (DBPR) applies to all utilities defined as community or nontransient noncommunity systems that treat their water with a chemical disinfectant. Under primacy, California is required to adopt the federal DBPR requirements; therefore, once adopted, California water systems will comply with the new MCLs, MRDLs, and treatment technique for disinfectants and disinfection byproducts.	NOE

2006048132	<p>Removal of Sediment from the North and South Fork Long Canyon Diversions Placer County Water Agency --Placer</p> <p>Sediment obstructing the diversion intakes and pools, as a result of the New Year's storm of 2006, will be removed using conventional excavation equipment, then hauled to a designated upland storage site on U.S. Forest Service lands. A streamflow bypass system will be installed to allow draining of the diversion pools, so that excavation can be performed in unwatered conditions. The work will be performed under a California Department of Fish and Game 1601 Agreement, a US Army Corps Nationwide permit, a #401 Water Quality Certification, and an Eldorado National Forest Special Use Permit, which include requirements for environmental protection.</p>	NOE	
2006048133	<p>Improvement of Measurement Section at Duncan Creek Flow Gauging Station R2 Placer County Water Agency --Placer</p> <p>The project consists of minor access trail improvements to the gauging station, and the installation of a reinforced concrete slab in the bottom of the creek below the normal water level. A stream flow bypass system will be installed to route the stream flow around the gauging station area, so that a concrete slab can be placed and anchored in dry conditions. No uncured concrete will be allowed to contact surface waters. The work will be performed under a California Department of Fish and Game 1601 Agreement, a US Army Corps Nationwide permit, a #401 Water Quality Certification, a Tahoe National Forest Special Use Permit, which includes requirements for environmental protection. Authorization to proceed from the Federal Energy Regulatory Commission will be obtained prior to construction.</p>	NOE	
2006048134	<p>LL Anderson Dam Spillway Bench Repairs and Geotechnical Borings Placer County Water Agency --Placer</p> <p>Several energy dissipation benches in the LL Anderson Dam spill channel sustained some erosion damage due to flows in the spillway in May 2005. This was the first spill since major modifications were made to the spillway in 1999. Repairs to the benches will consist of some loose rock excavation, installation of rockbolts, and placement of dental concrete. Small spring flows in the spillway will be diverted so that the work can be done in dry conditions. Also, vertical borings will be done in several locations in the spillway walls, invert, and on the dam itself, to obtain core samples and engineering data for the future spillway design. The work is planned for 2006 or 2007, after consultation with the Tahoe National Forest, which will include environmental protection measures, and after authorization to proceed from FERC.</p>	NOE	
2006048135	<p>Duncan Creek Crossing Replacement and Sediment Removal Placer County Water Agency --Placer</p> <p>The project consists of replacement of the structural plate culvert crossing Duncan Creek upstream of Duncan Diversion Dam, which was destroyed by storm flows and debris during the storm of December 31, 2005 to January 1, 2006. Embankment material surrounding the culvert was washed away, a portion of which was deposited at the upstream end of the Duncan Diversion pool. Engineering and design of a replacement crossing is planned for 2006, and construction is planned for summer/fall 2006 or 2007, after necessary permits are obtained. The replacement crossing will be designed to better handle large debris, which may be more likely since the Star Fire of 2001. Embankment material for the crossing</p>	NOE

	abutments will be obtained at least partially from the sediment at the upstream end of the diversion pool, which can be excavated without unwatering the pool. No uncured concrete will be allowed to contact surface waters. A stream flow bypass system may be required during construction of the crossing. The work will be performed under a California Department of Fish and Game 1601 Agreement, a US Army Corps Nationwide permit, a #401 Water Quality Certification, a Tahoe National Forest Special Use Permit, which include requirements for environmental protection, and authorization to proceed from FERC prior to construction.		
2006048136	Zogg Mine Road at Zogg Creek Bridge Replacement Project Shasta County --Shasta Replace the existing 30-foot long by 12-foot wide single span steel girder and timber decking bridge with a new 35-foot long by 22-foot wide single span reinforced concrete bridge on a revised horizontal alignment immediately downstream of the existing bridge. The west approach will require approximately 175 feet of roadway realignment while the east approach will require approximately 200 feet of roadway realignment. The new bridge deck will be at approximately the same elevation as the existing bridge. The existing bridge will remain open and accessible for through traffic while the new bridge is being constructed. Once the new bridge is completed, the old bridge will be demolished and removed. The project will be funded with 88% Federal Highway Administration Funds. Construction is tentatively scheduled to begin in the spring of 2007.	NOE	
2006048137	East Redding Bike Lanes Shasta County Redding--Shasta Construct class II bike lanes consisting of 6-foot additional paved shoulders with appropriate striping and signing. The project will provide a series of routes to Shasta College and Simpson College, and offer connections to bike lanes on Shasta View Drive and a separated bike path on SR 299 passing underneath I-5. Most work will be within the existing roadway fill. To accommodate the project, a 70-foot wide right-of-way is required. This will involve 54 parcels and acquisition of approximately 13.9 acres of right-of-way. No building relocations or acquisitions are anticipated. Approximately 50 utility poles will have to be relocated. The College View Drive segment will not require new right-of-way or utility relocation.	NOE	
2006048138	Maintenance Alternate Off-leash Dog Facility Santa Clara County Parks and Recreation Department --Santa Clara The proposed alternate off-leash dog facility at Hellyer County Park will be used as a temporary off-leash dog park while the existing facility is closed to undergo upgrades and maintenance, and at certain times during the year while the turf in the existing facility is resting. It is expected that the alternate facility will be used approximately two months in the late fall and/or early spring when upgrades are done to the existing facility, and for approximately one to two weeks for minor maintenance and to "rest" the turf in the existing facility. The new facility will be fenced, have a water fountain, and shade structures/seating areas but will not have irrigated turf. Clean-up stations including garbage cans, and pooper-scooper bags will be provided. Off-leash dog facility regulations and rules will apply and be posted. The alternate facility will be located directly across a paved trail from the existing facility. There will be no additions to parking and the proposed site will be accessed from the existing parking lot.	NOE

2006048139	Office Extension and Construction of a Sanitary Septic System Santa Clara County Parks and Recreation Department San Jose--Santa Clara Clearing of brush and leveling of site; placement of mobile trailer with support piers and small wood deck; and construction of a sanitary septic system. Permits have been obtained from Santa Clara Valley Water District, and Santa Clara County Department of Environmental Health. The purpose of the project is to provide expanded Park office space and a septic system for the existing and new offices.	NOE	
2006048140	Sinclair Property Acquisition Santa Clara County Parks and Recreation Department Morgan Hill--Santa Clara The project consists of the acquisition of an approximately 33.7 acre parcel, which abuts the eastern boundary of Anderson Lake County Park. The property will be incorporated into the existing park. The property is being acquired for its open space value to preserve existing natural conditions, and for the protection and preservation of parklands.	NOE	
2006048141	Hellyer Gap Trail Improvements Santa Clara County Parks and Recreation Department San Jose--Santa Clara The project consists of connecting an existing multi-use trail within the park to an existing trail within the City of San Jose (Coyote Creek trail) north of the park boundary. These trails are identified in the Santa Clara County Trails Master Plan (1995). The project includes: - Realignment of sections of an existing unpaved trail to move it further away from Coyote Creek. - Constructing a new section of trail linking the existing unpaved trail segment with an existing paved trail south east of the project site. Currently most of this area is turf. - Both the realigned unpaved segments and the new segment will be paved. There will be no change in purpose, use or designation; the trail will be a multi-use trail.	NOE	
2006048142	Property Transfers Monroe and 10 & 10B Sites Santa Clara County Parks and Recreation Department San Jose, Santa Clara--Santa Clara Monroe site - Property transfer that will allow for the development of a staging area as identified in the Board approved San Tomas Aquino/Saratoga Creek Trails Master Plan and MND/Mitigation Monitoring Program documents (MND/MMP), June 29, 1999. The parcel was identified as an important segment of the trail as a potential staging area in Master Plan. Since adoption, a NEPA document was filed as part of Federal grant application for the development of the staging area at the Monroe site.	NOE	
2006048143	Bravante Vineyard Conversion Napa County --Napa The applicant proposes earthmoving activities and implementation of erosion control measures associated with the conversion of approximately +/- 1.0-acre conifer forest to vineyard. The project would occur on land slopes ranging from 2-15%, averaging 14.5%, within a 3.04 acre holding. The project applicant has prepared an Erosion Control Plan pursuant to Napa County "Conservation	NOE

2004052060	Canyon Springs Truckee, City of Truckee--Nevada Tentative map, planned development and easement abandonment to create 213 for-sale single family lots, including 32 affordable lots. The site will include 182.34 acres of open space (which includes a deer migration corridor ranging from 600 to 800 feet), public trail system, and a multi-use recreational area.	NOP	05/11/2006
2006041066	City of Carlsbad Drainage Master Plan Update program EIR (Project No. 04-02) Carlsbad, City of Carlsbad--San Diego Citywide Drainage Master Plan Update and project level approvals for the Agua Hedionda Creek Dredging and Improvement Project; the Calaveras Creek Flood Control Improvement Project; and long term maintenance of Agua Hedionda and Calavera creeks.	NOP	05/11/2006
2006041070	The Collections at Monterey Resort Hotel Project Sand City Sand City--Monterey The proposed development project includes a coastal resort on the 15.5 acre property, commonly referred to as the "McDonald Site", consisting of 235 visitor rooms, 3 restaurants, conference and meeting facilities, a spa and health/wellness center, parking, and other ancillary and related improvements. The resort will consist of approximately 80 units. In addition, the applicants propose develop on the adjacent seven (7) acre property, commonly referred to as the "Sterling/Calabrese" site, with a 115-unit condominium hotel. This combined resort project would have a total of approximately 350 visitor lodging units. Primary access will be from Playa Avenue and Sand Dunes Drive. The project may be constructed in two distinct phases; Phase I involving up to 115 units on the "Sterling/Calabrese" site, and Phase II involving the build-out of the remainder of the project on the "McDonald" property. The approximately 2.31 acre property owned by the Granite Construction company, adjacent to the "McDonald Site", may also be used for additional project parking overflow and general public parking purposes.	NOP	05/11/2006
2006041080	Vasquez Rocks Natural Area Park Interpretive Center Los Angeles County --Los Angeles The proposed project would undertake the demolition of the existing Ranger's Residence and disturb approximately 180,000 square feet (4.15 acres) of land owned by the County. The major components of the proposed project include a single-story, 2,700-square foot interpretive center that would include a multipurpose exhibit room with interpretive displays, classroom, office space for staff, new restrooms, custodial room, and storage room. An entry plaza, would serve as the main entryway to the Interpretive Center connecting it to the parking lot. The	NOP	05/11/2006

	Interpretive Center would be constructed consistent with the requirements of the county, state, and federal building codes. The Interpretive Center would be supported by septic tanks since municipal sewer service is not available at this location. A 30,000-square-foot surface parking lot, consisting of 43 parking spaces (35 visitor, 5 staff, and 3 handicap access) and a bus drop-off area accommodating two visitor buses would be included. The proposed project would include indigenous plants to be used as landscape screening and a low-flow irrigation system, which would help limit the use of potable water for landscape irrigation. Other components including the existing outdoor lecture benches, rescued animal enclosures, and storage and trash containers would be relocated on the proposed project site. Utility lines supporting the proposed project would be located underground. A water storage tank would also be located in the proposed project site for the fire suppression system.		
2006042063	75 Willow Road Menlo Park, City of Menlo Park--San Mateo This project proposes to demolish the existing building, remove 105 of the existing 199 trees (including 46 heritage trees), relocate 12 trees (including 4 heritage trees), and construct 33 single-family detached residences with associated private streets and landscaping.	NOP	05/11/2006
2006042067	Case No. 2005.0634- 275 10th Street San Francisco Planning Department San Francisco--San Francisco The project site comprises three contiguous parcels located at 275 Tenth Street, 1350 Folsom Street, and 72 Dore Street in San Francisco's South of Market Area. The site is occupied by three interconnected on- and two-story buildings that contain a total of 27,690 sf housing a garment manufacturing business and warehousing space: 7,450 sf withing 275 10th Street; 15,190 sf within 1350 Folsom Street; and 5,050 sf within 72 Dore Street. No parking is provided on the project site. The proposed project involves the demolition of the existing onsite buildings and the construction of a new five-story, 86,692-gross-square-foot building containing approximately 63,490 gsf of residential use on floors two through five and 3,460 gsf of accessory office and support space, 3,900 gsf of communal space, and 2,510 gsf of commercial retail space on the ground floor. The proposed project would include a total of 135 units: 134 single-room occupancy-type very low-income dwelling units for homeless adults with on-site access to supportive services, and one unit for an onsite resident property manager. The project would include an at-grade parking garage accessible from Dore Street that would contain 11 off-street parking spaces. Open space for residents' use would be provided at the ground floor and within a second floor courtyard. The proposed building would be 50 feet in height.	NOP	05/11/2006
2006042075	Antelope Units 1-4 Sacramento County --Sacramento Antelope Units 1-4: 1. 	that could be associated with balancing the policies identified in the Plan.		
2005091047	EastLake III Senior Housing Project Chula Vista, City of Chula Vista--San Diego The proposed project is a 494-unit, active senior community located on approximately 19.6 acres in eastern Chula Vista. The site is bordered by Olympic Parkway and the East Lake Vistas community to the north, the Lower Otay Reservoir to the east, and the Olympic Training Center to the south and west. This project requires amendments to the City of Chula Vista General Plan, EastLake III General Development Plan, and EastLake III SPA Plan to change the land use designation on the site from Commercial Tourist to Residential-High. Amendments to the EastLake III Planned Community District Regulations and a Public Facilities Financing Plan will also be required. Related actions include a Tentative Map.	EIR	05/30/2006
2006031007	Kern County Expenditure Plan and Retail Transactions and Use Tax Ordinance Kern Council of Governments --Kern The Expenditure Plan and Ordinance would establish a 0.5% local tax dedicated to transportation planning, design, construction, operation, and maintenance within Kern County's boundaries.	EIR	05/30/2006
2006041084	Northside Shelter Investors, INC Hangar Construction Project Monterey Peninsula Airport District Monterey--Monterey The proposed project is located in the north-central portion of the Monterey Peninsula Airport. The proposed project includes installation of eight aircraft hangars. The design and color of the proposed hangars would be identical to those of the existing hangars, which are beige with a silver roof. Hangars would be 60 feet wide by 60 feet deep with a 20 foot eave height and a 22.5 foot peak height. They would be constructed of wood or metal framing with metal siding on concrete slab-on-grade foundations. A light would be affixed to each hangar near the peak of the roof and would direct light downward toward the hangar entrance. The proposed project may also include addition of one chemical toilet adjacent to existing chemical toilets.	MND	05/15/2006
2006041087	Perris Valley Channel Improvements Eastern Municipal Water District Moreno Valley--Riverside To ensure the integrity of the HDPE sewer line, EMWD proposes to construct improvements to the levee. Although a final decision has not been made as to the extent of the improvements, there are several options being considered. These include: - Restoring the eroded areas and stabilizing the embankment. - Restoring the eroded areas, stabilizing the embankment, and paving the access road. - Restoring the eroded area, stabilizing the embankment, paving the access road, installing a concrete berm along the access road, and installing down drains to convey runoff to a controlled discharge area. 2006042082	Contra Costa Canal Encasement Project Contra Costa Water District Oakley--Contra Costa The Contra Costa Water District (CCWD) is proposing construction of the Contra Costa Canal Encasement Project, which involves installing up to 3.97 miles of buried pipeline in place of the existing unlined portion of the Contra Costa Canal. The pipeline installation would occur between the trash rack near Rock Slough and Pumping Plant No. 1. Using preliminary engineering design analyses, CCWD recommends that the new pipeline be installed in the U.S. Bureau of Reclamation's 300-foot canal right-of-way (ROW). CCWD would consider constructing portions of the pipeline outside of the open waters of the canal but within the ROW, as well as adjacent to the canal ROW, if use of portions of adjacent property where CCWD would hold construction easements would improve constructability without incurring significant environmental impacts. The final pipeline alignment would be determined during the final design process.	MND	05/15/2006
2006042091	General Plan Amendment, Zoning Amendment, and Planned Development for Keith Ancar and Don Martin (2005-35) Calaveras County Planning Department --Calaveras The project is a General Plan Amendment to change the San Andreas Community Plan land use designation for the subject parcel from Commercial to Two-Family Residential. Concurrently requested is a Zoning Amendment for the same parcel from CP-PD (Professional Office - Planned Development) to R2-PD (Two-Family Residential - Planned Development). Also requested is a Planned Development Permit, approving the proposed design and site development associated with renovation of an existing single family residence into a duplex residence on the subject parcel. A request for modification of the required Road Template from Template "F" to Template "G", without curbs, gutters, and sidewalks is also included as part of the Planned Development.	MND	05/16/2006
2006042083	Embarcadero Cove Oakland, City of Oakland--Alameda The project sponsor proposes to construct a new development consisting of 98 residential units and 46 live/work unit. The proposal also sets aside area to accommodate a 9,000 square-foot commercial building to be constructed at a future date. The new residential units would be single-family homes located on small lots ranging primarily in size from approximately 1,200 to 1,300 square feet of lot area. The new live/work units would be located in the southern portion of the site along 22nd Avenue. All of the proposed units-both residential and live/work - would be for sale at market rates. The site is currently occupied by a complex of commercial/industrial buildings. All of the existing buildings and uses on the site would be removed by the project.	NOP	05/15/2006

2006049021	Peasant Grove Road at Curry Creek Bridges Replacement Fish & Game #2 --Sutter SAA #1600-2005-0262-R2 This project pertains to the replacement of two bridges on Pleasant Grove Road located at Curry Creek and at a minor fork to Curry Creek. The North Fork of Curry Creek bridge will be replaced with twice 48" culverts with headwalls. The existing Curry Creek Bridge will be replaced, a center bent will be placed in the waterways.	NOD	
2006049032	TT-03-010 (15395) Victorville, City of Victorville--San Bernardino The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0060-R6 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Richmond American Homes. The applicant proposes to construct a 59-acre single family residential development consisting of up to 271 single family residential homes.	NOD	
2006048154	FOCIL - MB, LLC Variance from Manifest Requirements Toxic Substances Control, Department of San Francisco--San Francisco DTSC has issued a variance to FOCIL - MB, LLC (FOCIL) pursuant to California Health and Safety Code section 25143. The variance waives hazardous waste manifesting requirements and allows FOCIL to use bills of lading to transport soils generated from excavation activities associated with the redevelopment in the approximately 300-acre Mission Bay area in San Francisco. This variance is applicable to soils and miscellaneous wastes that are hazardous wastes not subject to the federal Resource Conservation and Recovery Act (non-RCRA hazardous waste) that are generated at properties owned by FOCIL along public roads within the Mission Bay redevelopment area, located in the City of San Francisco. The variance waives Health and Safety Code section 25160 and California Code of Regulations, title 22, sections 66263.20 through 66263.23.	NOE	
2006048155	Angel Island Perimeter Road Park Bench Replacement Parks and Recreation, Department of --Marin On Angel Island, replace six dilapidated wooden park benches with new plastic/steel park benches. The benches will be placed in the same perimeter road locations occupied by the old benches. Two concrete-filled, 8-inch diameter, 2-foot deep holes will be required for each installation.	NOE	
2006048156	San Diego Formation Monitoring Well San Diego, City of San Diego--San Diego The City has received grant funds to conduct a feasibility study for implementing a brackish groundwater desalination facility in the San Diego Formation Basin. The first step in the overall feasibility study is to construct a monitoring well to obtain data for the groundwater basin. The well would be located within a remote northeast corner of the Mount Hope Cemetery in an area with disturbed habitat. The drill pad would be an approximately 900 square feet area that may require minor grading to even out the surface. A 10-inch borehole would be drilled to a depth of approximately 1,200 foot depth. A 4-inch diameter steel well casing will be installed from the surface to the total depth of the well. Approximately 75,000 gallons per day of extracted groundwater would be discharged to the storm drain or	NOE

	repaired in 2003 to address the flood damage to the exterior slope of the embankment and rehabilitation of selected portions of the levee travel way that have experienced localized rutting.		
2006048163	Application to Appropriate Water State Water Resources Control Board, Division of Water Rights --San Benito, Santa Cruz Mr. J.E. Jensen (Permittee) currently holds Permit 19572 (Application 28156) authorizing diversion of up to 20 acre-feet of water per annum (afa) to storage in two onstream 10 acre-foot reservoirs, Reservoir 1 and Reservoir 4. Permittee filed a temporary permit application on April 3, 2006, under Water Code section 1425, seeking approval to continue diverting water to storage in Reservoir 1 during the period of April 10, 2006 through April 19, 2006. Applicant claims that due to unusual weather patterns this year, only about 3 acre-feet of water was stored in Reservoir 1 as of March 31, 2006, and there is an urgent, but temporary, opportunity to divert up to an additional 7 acre-feet in the reservoir to meet irrigation needs in the point of diversion later this year.
